

VehicleHistory.com Releases Report to Help Customers Avoid Becoming Scam Victims

Company is determined to fight used car scam artists.

San Diego, CA ([PRWEB](#)) January 04, 2014 -- [VehicleHistory.com](#) is set to launch a comprehensive report that will educate people so they can avoid becoming the victim of a used car scam, the company announced yesterday.

“Far too many people become scam victims when they buy a used car,” a VehicleHistory.com spokesman said. “Our reports can help them, but they only go so far. The best way to beat scam artists is to understand their game. That is what we are going to do to help our customers.”

The VehicleHistory.com anti-scam guide will break down the most common used car scams and then go into detail about how to recognize them, he said.

“We'll show you all the red flags that indicate you are dealing with a scam artist,” he said. “Once you know how a given scam works, you'll notice it and know that it's time to walk away.”

The guide will be put up on the members' area of VehicleHistory.com and on their social media channels and blog, he said.

“This is not a paid service we are talking about,” he said. “Rather, this is a way for us to help all consumers. Nobody deserves to become a scam victim. Our goal is to protect the entire community.”

VehicleHistory.com will work with former law enforcement officers and retired used car salesmen to create the report, he said.

“Our goal is to have the most comprehensive report possible,” he said.
