

Vantage Mobility Announces Consumers Now Have the Ability to Design Their Own Wheelchair Van Online

Vantage Mobility (VMI), has today announced a new program that allows consumers to design their own wheelchair van and receive a price quote online from the company's website.

Phoenix, Arizona ([PRWEB](#)) January 6, 2010 -- Today, Vantage Mobility International has announced an innovative program designed to provide convenience and ensure quality for disabled persons in need of a wheelchair van. This new program allows VMI consumers to visit the company's website and design their own wheelchair van, as well as obtaining a price quote on their personal customized vehicle.

A simple mouse click is all that is required to start designing a new wheelchair accessible van, thanks to the innovation and dedication of VMI. With a new Design & Quote function, simply visiting the website allows you to start the custom design process for a wheelchair van that will fit your mobility needs exactly.

The design and quote function encompasses both full-size [wheelchair vans and wheelchair minivans](#), ensuring that all consumers are able to find the perfect solution for their mobility needs. Both types of vans offer benefits for the physically challenged. For instance, the full-size van selection offers options ranging from raised roofs to three separate lowered floor configurations. Five different platform lift options, four interior designs and four different vehicle powertrain choices are also available.

If a wheelchair minivan is more to your liking, VMI offers several features from which to choose. Mobility customers can opt for a Dodge or Chrysler minivan, or the award-winning Honda Odyssey minivan. Each wheelchair minivan features a side entry and lowered floors, as well as several ramp options. Other options include removable front seat bases, the PowerKneel™ system, maximized headroom throughout the vehicle and remote control entry for greater convenience.

Never before has a physically challenged person had such considerable ability to customize their wheelchair vans to meet their exact mobility needs. Thanks to the dedication of VMI, you can now choose the best solution for you and ensure that you are able to enjoy the freedom of travel that you deserve.

To find out more about how Vantage Mobility can help with your mobility needs or to view their inventory of wheelchair vans, visit them at [VantageMobility.com](#).

About Vantage Mobility: Vantage Mobility has been dedicated to providing the best mobility solutions for physically challenged consumers since the company's inception.
