

All Traffic Solutions Announces Trade In Program

Old Traffic Safety Equipment Worth up to \$2,000

State College, PA ([PRWEB](#)) January 07, 2015 -- All Traffic Solutions has announced new trade in discounts that will enable municipalities and facilities who currently own older radar speed displays and variable message signs to upgrade those signs, regardless of the condition or manufacturer. This offer allows users to take advantage of the most up-to-date technology and features and save substantially on the purchase.

The program details and discounts are simple. Old All Traffic Solutions signs of any type have a trade-in value of \$2,000 and competitor signs are worth \$1,000. In exchange for the old sign and a two year commitment to the [TraffiCloud™ Traffic Suite](#), customers will receive a brand new sign which is lighter and more flexible than any similar sign on the market. With TraffiCloud™ technology, users can manage their equipment remotely from anywhere there is an internet connection, automatically retrieving data and generating comprehensive traffic reports, including traffic volumes and speeds. The sign will also send alerts for high speed events, congestion or tampering. Equipment subscribed to the TraffiCloud service even has a perpetual warranty. And the browser-based web tools don't require any IT setup.

At this time of year as agencies and facilities are planning budgets, this program's deep discounts provide great value and flexibility. For more details or to upgrade your equipment, [contact](#) All Traffic Solutions at 866-366-6602 or [sales\(at\)alltrafficsolutions\(dot\)com](mailto:sales(at)alltrafficsolutions(dot)com).
