

Mckinney Trailer Rentals Makes Major Commitment of Additional SmartWay Certified Trailers in 2015

Mckinney Trailer Rentals, a leading provider of trailer equipment rentals and leases, has committed to upgrading their fleet with SmartWay certified trailers in 2015. The new trailers will be available to both rental and long term lease customers who have expressed a high level of demand for increased capacity of all types of equipment into Mckinney's existing fleet.

([PRWEB](#)) January 08, 2015 -- [Mckinney](#), one of the fastest growing trailer leasing companies in the nation, is pleased to continue their investment of new equipment with a combination of dry vans, flatbeds, chassis and CARB compliant refrigerated trailers to the fleet. All new 53' dry vans will be outfitted with SmartTruck's UT-1 UnderTray System. SmartTruck's proven, thoroughly tested designs, are EPA SmartWay verified and CARB compliant, providing a fuel-efficiency improvement of at least 5.5 percent.

"SmartTruck's aerodynamic solutions are a great fit for our fleet operation," said Thomas Begin, Director of Maintenance for Mckinney. "Their durability will eliminate most product maintenance costs, and, unlike obstructive traditional side skirts, the products will not impede our fleet maintenance efforts or pre-trip inspections for our customers."

Mckinney Trailer Rentals continues to be a leader in advanced technology solutions with innovative equipment specifications. In the past four years, Mckinney has added more than 12,000 pieces of equipment to the fleet and more than doubled the number of branch locations through timely acquisitions. In 2015, Mckinney Trailer Rentals will continue to grow its existing branches with upgraded facilities and increased fleet sizes.

About Mckinney Trailer Rentals:
