

New at Summit Racing Equipment: Traxxas Radio Control Vehicles

Be a hero on Christmas Day--put some Traxxas RC vehicles under the tree. Summit Racing carries 21 Traxxas RC trucks and cars, plus a cool helicopter and even a racing boat for the nautical people on someone's holiday list.

Tallmadge, OH ([PRWEB](#)) November 27, 2015 -- Be a hero on Christmas Day--put some [Traxxas RC vehicles](#) under the tree. Summit Racing carries 21 Traxxas RC trucks and cars, plus a cool helicopter and even a racing boat for the nautical people on someone's holiday list. Here are some Traxxas favorites:

LaTrax Alias Quad Rotor Helicopters

Fly, hover, buzz the dog—do it all with the Alias. The unique flight control system and six-axis stability control lets even new pilots fly faster and perform aerobatic maneuvers quickly. Features include:

- Molded composite body that's lightweight and virtually indestructible
- Quad-rotor thrust with auto-leveling 6-axis flight system
- Four high-output electric motors—50% more powerful than standard motors
- 2.4GHz channel-less radio system with video game-style controls for ease of use
- LED lights in rotor struts for night flying
- Elevated rotors prevent tangles when landing in grass
- Fully assembled, includes 650mAh LiPo battery and USB-powered battery charger

Slash 4x4 Short Course Race Trucks

These 1/16 scale Slash 4x4 race trucks set the standard for short course fun with breakneck speed and track-ready handling. Features include:

- Titan 550 12T high-torque motor—same motor used in Traxxas 1/10 scale trucks
- XL-2.5 electronic speed control with three drive modes and one-button setup
- 2.4GHz two-channel radio controller
- Full-time four-wheel drive for superior handling and control
- Suspension based on Traxxas' race-winning Revo monster trucks
- Torque-Control™ slipper clutch
- Sealed differentials
- Waterproof electronics
- Durable polycarbonate body shell with replica graphics
- Six-cell Power Cell NiMH battery and two amp DC fast charger included

Stampede VXL Monster Trucks

Available in two- or four-wheel drive, these 1/10 scale trucks can top out at 65-plus MPH. Features include:

- Traxxas Stability Management (TSM) enables full-throttle acceleration on slippery surfaces without loss of control, automatically corrects during high speed cornering
- Velineon 3500 brushless motor
- Velineon VXL-3 electronic speed control with Sport, Race, and Training Mode modes
- Training Mode limits full-throttle power to 50% for use by young or new drivers
- Torque-Control slipper clutch delivers smooth operation and consistent traction control
- TQi 2.4GHz controller—fully adjustable for steering, throttle, and braking
- Digital high-torque steering servo
- Precision steel turnbuckles with heavy-duty rod ends

- Front suspension tie bar
- Steel transmission gears
- Rubber sealed ball bearings at the wheels
- ProGraphix painted body
- 8.4V Power Cell NiMH battery and four amp DC fast charger included

Telluride Extreme Terrain 4x4 Trucks

The Telluride Extreme Terrain trucks are engineered for off-road duty, from rock crawling to trails to high-speed desert banzai runs. The 1/10 scale trucks feature:

- Shaft drive four-wheel drive system with telescoping U-jointed driveshafts
- Long-travel suspension
- Fully adjustable shocks with powercoated springs
- Dual bellcrank steering system with high-torque steering servo
- Modular fiber-composite chassis disassembles easily for service
- Revo-spec differentials
- High-stall gear clutch
- Kumho replica tires on beadlock-style wheels
- Titan 550 12T high-torque motor with internal cooling fan
- XL-5 electronic speed control with three drive modes including Training Mode
- 2.4GHz two-channel radio controller
- Fully waterproofed electronics
- Solid camber links and captured rod ends that won't pop off
- ProGraphix multi-colored painted body
- Seven-cell Power Cell NiMH battery and four amp DC fast charger included

Summit Racing also carries Traxxas batteries, motors, servos, controllers, and other components to fix or upgrade a vehicle.
