

Vehicle Inspection Systems Adds Chat Feature to Website

To better serve customers, Vehicle Inspection Systems (VIS) has added a new chat feature to the company's website.

Orlando, FL ([PRWEB](#)) October 21, 2016 -- Vehicle Inspection Systems, the front runner for heavy duty vehicle, truck and bus safety in the trucking and transportation industry for more than 20 years, is pleased to introduce a new chat feature on the company's website, [vischeck.net](#).

The chat feature adds another easy option for customers to reach the VIS sales and service departments. Using PureChat, a modern chat platform, VIS team members will be able to deliver another personalized communication experience to customers.

“I have used PureChat in the past with exceptional results,” Kristen Chapman, VIS Marketing Manager, said. “The platform is simple to use for our customers and a great alternative to picking up the phone if they are already browsing our website. One of our customers has already told us that the website chat feature is a huge help for him. We want to be able to reach out in the most convenient way for our customers.”

To reach a VIS representative through their online chat, simply visit [vischeck.net](#). You can also reach the VIS team by phone at 866-847-8721.
