

Tefteller Law Firm's Jarom Tefteller Named to Multi-Million Dollar Advocates Forum

An attorney at one of the nation's top law firms that specializes in 18-wheeler accidents is now a member of the Multi-Million Dollar Advocates Forum.

Gilmer, TX ([PRWEB](#)) December 31, 2013 -- As a result of Attorney Jarom Todd Tefteller's demonstration of exceptional skill, experience and excellence in advocacy, representatives with [Tefteller Law Firm](#) announced today that he is now a certified life member of the prestigious [Multi-Million Dollar Advocates Forum](#).

Jarom Tefteller, whose practice focuses 18-wheeler and commercial truck accidents and catastrophic injury, and oil field accidents and deaths received a certificate from the Million Dollar Advocates Forum and the more prestigious Multi-Million Dollar Advocates Forum, which was established in 1993, and is one of the most prestigious groups of trial lawyers in the United States.

Membership is limited to attorneys who have won million and multi-million dollar verdicts and settlements. Less than 1 percent of U.S. lawyers are granted membership in the Forum.

"This is a tremendous honor," said Tefteller, partner and spokesman for Tefteller Law Firm "and it speaks volumes about the success and dedication of the whole firm."

A Red McCombs School of Business graduate from the University of Texas, Jarom chose South Texas College of Law due to their tough Trial Advocacy program. It is consistently rated in the top ten Trial Advocacy programs in the nation.

Jarom Todd Tefteller always wanted to be a trial lawyer. He did not want to be just a "litigator" who spends all their time and energy writing motions and trying to stay out of the courtroom. "A trial lawyer," stated Tefteller "is someone who is not afraid to step into the arena in front of a jury of his peers and tell them his client's story. He is not afraid of the jury because he knows there is no better way to get justice than to let the common sense of his peers decide who is telling the truth. In a trial, you can't hide the facts behind legal jargon and doubletalk." According to Jarom, he always believed in taking the fight to his opponents. The only way he could do this was to keep working on his skills and take the fight to a courtroom.

Jarom was handpicked by Dean T. Gerald Treece from a class of over 300 law students to represent the school in National Moot Court and Mock Trial competitions around the country.

After graduation, Jarom headed the Tort Section in the Tefteller Law Firm which handles personal injury and wrongful death cases of all kinds. In pursuit of justice, Jarom frequently travels all around Texas often in a Rockwell Aero Commander, the firm's dedicated plane.

Tefteller Law is a personal injury law firm serving Beaumont, Tyler, Longview, Port Arthur, Huntsville, Texarkana, Lufkin, Nacogdoches, Paris, Marshall, Jefferson, Pittsburg, Mt. Pleasant, Quitman, Henderson, Linden, Atlanta, Dangerfield, New Boston, Clarksville, Athens, Paris, Rusk, Palestine, Mt. Vernon, Greenville, Sulphur Springs, Canton, Kilgore, Carthage, Gilmer and surrounding areas of [East Texas](#).

The Multi Million Dollar Advocates Forum includes an impressive list of top trial lawyers in the country. When

a lawyer is certified by the forum, it is an acknowledgment for his exceptional work and skill. Moreover, every member becomes a part of a huge network of top-notch and experienced colleagues for assistance, information exchange and referrals.

“Many of our members have achieved numerous million and multi-million dollar results, several members have won billion dollar cases,” the forum website states. “Their practice areas include most areas of litigation, including: major personal injury, products liability, malpractice, construction, environmental, employment, insurance and business litigation. The common fact is that they have each demonstrated, in an objective and tangible way, their ability to accomplish superior results in complex cases. Certification by the Million Dollar Advocates Forum provides recognition of such accomplishment and a national network of experienced colleagues for information exchange, assistance and professional referral.”

Jarom was also accepted as a member of the Association of Plaintiff Interstate Trucking Lawyers of America. Each member of the association has pledged to work aggressively within the law through learning legislation and litigation to achieve its mission of dramatically reducing the number of traffic accidents, injuries and deaths across America that are caused by unsafe trucking companies.

“My firm serves local clients in the eastern Texas region, cases statewide and nationwide, so all of our clients can rest assured that the pledge will be upheld at all times,” Jarom promised, before adding that, “Unlike many law firms, Tefteller Law clients are treated as people, not numbers and they get to work closely with their lawyer as part of a team.”
