

InventHelp Invention Allows For More Convenient Eating and Drinking in Vehicles (CCT-2047)

Founded in 1984 in Pittsburgh, InventHelp is submitting the CAR-T to companies in the hopes of their good faith review.

PITTSBURGH, PA ([PRWEB](#)) July 18, 2016 -- "I eat lunch in my car while at work, so I know the difficulty of keeping food and drink stable and avoiding messes," said an inventor from Ansonia, Ohio. "This inspired me to design a better way to do eat and drink in a vehicle."

CAR-T enables a user or users to eat and drink more conveniently in a vehicle. It avoids spills and messes, which prevents stains and the need for cleanup. As a result, it promotes convenience. Versatile and easy to use for all drivers, it's ideal for on-the-go people, salespeople, workers, families with children, etc.

The original design was submitted to the Cincinnati office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-CCT-2047, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
