

WEATHER SHIELD Keeps People Dry While Entering and Exiting Vehicles When It's Raining - Designed by InventHelp Client (ORD-2238)

InventHelp is working to submit the WEATHER SHIELD to applicable companies in the hopes of their good faith review.

PITTSBURGH, PA ([PRWEB](#)) July 26, 2016 -- "For as long as I've been driving I've been frustrated by getting wet while getting into and out of vehicles when it is raining - even when using an umbrella," said an inventor from Kissimmee, Fla. "In order to solve this common problem I conceived of the WEATHER SHIELD." He then created a prototype of his idea.

This versatile and easy-to-use invention provides a reliable way to avoid getting wet while entering and exiting a vehicle when it is raining. This eliminates frustration and discomfort. In addition, the invention provides extra shade and keeps the vehicle interior cooler in sunny weather.

The original design was submitted to the Orlando office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-ORD-2238, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
