

QuickTrick Partners with Lucky Dog Racing & Heroes Motorsport for first Title Race Sponsorship

September 17-18, 2016 brings together three dynamic organizations supporting disabled Veterans and Amateur Racers at Oregon Park Raceway.

Birmingham, Alabama ([PRWEB](#)) July 26, 2016 -- Oregon Raceway Park, where more than 400+ amateur racers will have fun & frustration on the 2.3 Mile track, the longest in Oregon and runs in both directions. With 16 turns at various angles, everyone will need a QuickTrick to get that alignment just right.

"We wanted something special for our first race as Title Sponsor and we could not have asked for a better group," stated Tess Winningham, CEO of Alignment Simple Solutions.

"Our first QuickTrick was invented due to a need while racing in the amateur races," stated Gary Gann, inventor and COO of Alignment Simple Solutions, manufacturer of QuickTrick Products. "That's enough about us, let's talk about this great group Heroes Motorsport."

Mr. Gann went on to say, "Al Almahdi decided to form a racing team of disabled veterans and first responders to create an environment that allows the participant to re-ignite their passion, and to provide support, camaraderie and teamwork through motorsports. HM is currently assembling the team and recently started working with Adaptive Motorsports and Wellness to bring a modified stock car to the West coast and get these disabled veterans on the track. If anyone needs a testimonial on why this makes a difference, they should look up the Heroes Motorsport site. We are extremely proud to help this organization as well as the titans of Lucky Dog Racing."

Early bird registration ends August 1, 2016 and Alignment Simple Solutions, maker of QuickTrick products, will be donating \$10.00 per race car entry!

Alignment Simple Solutions, home of QuickTrick Products, is a USA manufacturer of affordable, portable wheel alignment tools used for enthusiasts, fleet managers, military and school buses. Since starting the business in a home garage, ALSS has sold products in over 105 Countries and still manufactures in house.
