

## **ACD's AUTOLINK® Now Featuring Premium Reporting**

### *Premium Reporting Offers More Actionable Insight For Insurers*

Carlsbad, CA ([PRWEB](#)) September 01, 2016 -- ACD announced the launch of premium reporting to ACD's workflow platform, AutoLink®. This new reporting module provides even more actionable insight for insurers allowing for hundreds of new data points and custom reports. In addition to these enhanced features, the reporting solution allows for automated scheduling, filtering and delivery to meet any insurers unique needs. The new premium reporting also provides an array of graphs and compelling visuals that deliver a powerful impact for managers and their teams.

Premium reporting is now available to current technology subscribers of AutoLink® technology.

"I'm very pleased with the superb job our team did in building such an incredible reporting module," stated Ernie Bray, CEO. "The depth and detail of our reporting is a huge reason why insurers come to ACD's modern technology. We're able to provide actionable insights at a level unseen in the industry," added Bray.

#### About ACD

In an era of connectivity and rapid change, ACD's AutoLink® claims workflow platform is a market leader in innovation that connects and unifies a fragmented auto insurance claims industry with digitally empowered solutions. ACD, an award-winning company, has been ranked four years on Deloitte's Technology Fast-500 of North America and six times on the INC. 5000. ACD's technology and claims service group has processed over \$3B in claims, smoothing the way for insurers and their customers. ACD is a leading Insuretech firm located in Carlsbad. #insuretech For more information visit ACD [www.acdcorp.com](http://www.acdcorp.com)
