

## **Improved Driver Comfort Designed by InventHelp Client (ALL-620)**

*A leading inventor service firm, InventHelp is submitting the VEHICLE ARMREST to companies for their consideration.*

PITTSBURGH, PA ([PRWEB](#)) August 16, 2016 -- Many drivers have to rest their elbows on the sill of the driver-side door, which is usually too high and uncomfortable. "I designed a way to solve this problem," said an inventor from Decatur, Ga.

The VEHICLE ARMREST enhances comfort for a driver by providing support for his or her left arm while driving. It also allows for easier access to a drink. Easy to use and producible in design variations, it's ideal for long-haul truckers and drivers with arm injuries.

The original design was submitted to the Atlanta office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 14-ALL-620, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
