

## Equus Products, Inc. Offers Father's Day Gift Ideas For The Car Lover

*Automotive gift ideas that are sure to please.*

Fountain Valley, CA ([PRWEB](#)) February 26, 2004 --Whether dad's a full-blown grease monkey, an occasional tinkerer or a "wannabe" weekend mechanic, we have an automotive gift idea that's sure to please. Equus Products, Inc., offers these suggestions for Father's Day and everyday:

Innova® 3100 OBD II Code Reader. Find out why the "CHECK ENGINE" light illuminated on 1996 & newer cars, trucks and SUVs with this hand-held OBD2 code reader. Dad doesn't have to be a mechanic or computer guru to use this tool. Just plug it into the vehicle's universal connector (usually found under the dashboard), push a button and get all necessary information on one screen in about 10 seconds. If any trouble codes appear, access the included manual to define the problem. It's great to use before going to the mechanic, getting an emissions (smog) test, taking a road trip, buying a used car or attempting repairs on your own. It retails for approximately \$120 to \$160. For more information, visit [www.CodeReader.com](http://www.CodeReader.com).

Equus Performance™ 8080 5" Shift Light Tachometer. Unless dad is a die-hard do-it-yourselfer, he can probably do without the usual hassles and costs associated with installing a hot looking, high performance tachometer. That's why "right out of the box" this super lightweight tach is ready to install on most popular vehicles using your choice of hardwire or world's first inductive pickup options. It also boasts Back-Lit™ color choices in red, natural, blue and green; programmable shift points; "ego-boosting" recall function; and internal and external shift lights. It retails between \$129 and \$170.

Innova® 3327 Digital Multimeter Kit. This promotional Father's Day kit features all the necessary items for performing basic to advanced automotive and household electronic testing. It includes the 4320 Digital Multimeter with 10 MegOhm impedance for safe use on electronic vehicles. It also features the 3810 Automotive Test Light and 4921 Battery & Charging System Monitor. Plus, it comes with a durable carrying case. Suggested retail price: \$44.

Innova® 3585 5-Piece Test & Tune-Up Kit. This kit is great for performing basic at-home tune-ups and preventative maintenance. It features the 3551 Inductive Timing Light, which works on most domestic and import vehicles, including those with distributorless ignition systems. It also includes the 3210 Compression Tester, 3220 Vacuum Gauge, 3230 Remote Starter Switch and 4320 Digital Multimeter. It's packaged in a briefcase-style carrying case. Suggested retail price: under \$100.

Innova® 3720 Battery Voltmeter. Don't get stuck on the side of the road or at the boat ramp with a dead battery. Check your battery's state of charge with this underhood tester before you get on the road. It features digital voltage display with bar graph to indicate battery charge levels, and easy-to-read color-coded LEDs to quickly identify charge status. It's designed for 12-volt negative ground systems, including cars, trucks, boats and RVs. One-foot leads with battery clamps are stored within this compact unit. Suggested retail price: \$25.

Innova® 3721 Battery & Charging System Monitor. Easily plugs into the cigarette lighter to let dads, grads and even mom monitor battery and charging system voltage from the comfort of their vehicle. It features LCD display with bar graph to measure voltage, color-coded LEDs to identify the battery's charge status, and pivoting head for easy viewing. Suggested retail price: \$25.

Founded in 1982, Fountain Valley, Calif.-based Equus Products, Inc., is a leading manufacturer and distributor of automotive aftermarket test equipment, gauges and tachometers. These and other Equus®- and Innova®-branded test equipment and gauge products are available at many popular automotive and mass merchandise retail locations throughout North America.
