

RXTuner Magazine Launches New Website

RXTuner Magazine's new feature-packed Website allows for direct interaction with the publishers of the nation's rotary-only automotive magazine.

([PRWEB](#)) April 9, 2004 -- With the release of www.rxtuner.com every rotary enthusiast around the world will now have the opportunity to participate in the direction of the magazine. The site allows for reader's submissions, discussions on current articles in the publication, feedback on the magazine, customer service support and the ability to download and view choice articles in PDF format. New members can also subscribe online.

RXTuner Magazine was created for the rotary-engine community by enthusiasts of Mazda's RX-vehicles. The monthly publication features readers's rides from our sister websites, www.rx8club.com and www.rx7club.com, in-depth "How-Tos", product reviews, race coverage and content from Puerto Rico, Australia, Japan and other countries around the world.

RXTuner Magazine shipped it's first issue--the April edition--to over 1,300 paid subscribers and plans on growing the subscriber base to 5,000 readers by year's end. The magazine's short-term goal is to get the title distributed to newsstands around the U.S. and Canada.
