

## **Cross Lander 4x4 SRV - Heart of Steel**

*The Rugged Cross Lander 4x4 is Headed for America*

([PRWEB](#)) April 21, 2004 --The world of Cross Lander begins in Eastern Europe decades ago. Bred from a military heritage, tested and proven in the Amazon Jungle, it is a world where roads are rare, maps are not followed and rules are made to be broken. The Cross Lander is a new kind of 4x4 - A workhorse with a "Heart of Steel". A frame forged from solid steel, a rugged and durable suspension and a proven drive train are equal to any task - on or off the road. The Cross Lander 4x4 meets the recreational requirements of today's 4x4 enthusiast, it is equal to the rigors of ranch life and the stop and go of urban gridlock.

The new Cross Lander vehicle completes a niche off road SUV segment of the market. A spokesman for Cross Lander U.S.A. in Miami said, "The Cross Lander 4x4 is in a class of its own. The only thing we can compare Cross Lander to is the Land Rover Discovery and the Hummer, and we are excited about being able to provide such a rugged, durable and affordable line of vehicles to the American public

The first Cross Lander model to be introduced is the CL-244. The Cross Lander 4x4 CL-244 is a full sized, four-door, Multi Purpose Utility Vehicle that boasts a 4.0 liter 207 hp V6 EFI SOHC ENGINE with 238 lbs. of torque. The Cross Lander chassis and frame is made of thick steel to withstand the harshest of off road environments. All Cross Lander 4x4 vehicles will come with standard four-wheel drive, 5-speed manual transmission and a 3 year 36,000 mile limited warranty and will sell for under \$20,000, Manufactured Suggested Retail Price. You can reserve one now.
