

## See Transoft Solution's Products Live Online via free Webcasts

*Transoft Solutions is now offering everyone the opportunity to see how their products can help you first hand. Sign up today for a Free Live Webcasts.*

Vancouver, BC, Canada ([PRWEB](#)) August 14, 2004 -- Transoft Solutions is now offering the industry an opportunity to have a first hand look at how useful their products are live over the internet. Users can now sign up for free, live, interactive webcasts to see Transoft's products in action.

Traditionally users would have to read and imagine for themselves how Transoft's productivity enhancing products can help them in their everyday designs. With this new presentation method industry leaders can see and hear first hand how Transoft's products can be used and why they are essential tools for transportation design.

There are presentations offered for all Transoft's major products. Clients can learn how the industry leader in turn simulation AutoTURN can help them use vehicle simulations in everyday design. How fast and efficient roadway sign design is made easy with GuidSIGN's features and benefits. Attendees will also get an opportunity to be one of the first to see ParkCAD, Transoft's newest innovation the premier parking layout design software.

Transoft's webcast program is their next step in reaching out to the industry and providing it with useful and relevant information. The webcasts will allow the user to interact with product experts and ask any questions they may have and get the answers immediately from experts in the field. To sign up for Transoft Solutions Free Live Interactive Webcasts visit [www.transoftsolutions.com/webinars/webinarcatalog.asp](http://www.transoftsolutions.com/webinars/webinarcatalog.asp)

Here is what some of our first attendees are saying about Transoft Solution's webcast program

Very informative presentation, especially for being held on the net.  
- Andrew Barnett, WD partners

Great Presentation, I really enjoyed seeing all the product features.  
- Brad Clark, Urban Systems

### About Transoft Solutions

Transoft Solutions, Inc., developers of AutoTURN and GuidSIGN, has been providing innovative CAD-based software for the international engineering design community since 1991. Headquartered in British Columbia, Canada, Transoft is an industry leader in the development of state of the art software for road and airport design professionals.
