

## **Largest American Flag in North America Raised in Clearwater, Florida**

*On April 22, 2004, the Lokey Automotive Group raised the largest American flag in North America flying on a daily basis.*

CLEARWATER, FL ([PRWEB](#)) April 29, 2004 - On April 22, 2004, the Lokey Automotive Group raised the largest American flag in North America flying on a daily basis. Paul B. Lokey, president and owner, was on hand as well as dealership employees to witness the American flag raised to full mast.

Located at Lokey Nissan KIA Volkswagen, the flag is on US Highway 19, just north of Clearwater's Westfield Countryside Mall. Commissioned by JD Memmot of All American Flags, the flag can be viewed from over 2 miles in the surrounding area.

"We are excited to fly North America's largest flag," Lokey said. "In these difficult times, we wanted to show our support for the American people. We have to let people know that we are united, and what better way than to have the American flag flying proudly over our community."

The Lokey Automotive Group was founded in 1952 by Earl B. Lokey. Still family-owned and operated, the Lokey Automotive Group now operates nine dealerships including Lokey Infiniti, Lokey Mercedes Benz, Lokey KIA, Lokey Mitsubishi, Lokey Nissan, Lokey Volkswagen, Saturn of Clearwater, Saturn of St. Petersburg and Saturn of Port Richey.
