

## **Protect Vehicle Flags With CATCH'EM - Designed by InventHelp Client (BRK-1097)**

*InventHelp, a leading inventor service firm, is submitting the CATCH'EM to companies for their review.*

PITTSBURGH, PA ([PRWEB](#)) November 14, 2015 -- After seeing a lot of vehicle flags lying on or around roads, an inventor from Auburn, Ala., decided that there needs to be a way to prevent such flags from being blown away due to open windows.

The CATCH'EM is an accessory avoids the loss of vehicle flags by keeping them from blowing away in wind when windows are open. This eliminates the need for replacement, which saves time and money. Easy to use and producible in design variations, the accessory is ideal for all sports fans and companies.

The original design was submitted to the Birmingham office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 14-BRK-1097, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
