

## **ABC EXPRESS is a More Convenient Baby Car Seat - Designed by InventHelp Client (KOC-267)**

*InventHelp is a leading invention submission firm, and is submitting the ABC EXPRESS to companies for their review.*

PITTSBURGH, PA ([PRWEB](#)) November 27, 2016 -- Many parents and guardians struggle to carry their babies in detachable car seats, which makes them vulnerable to back and arm strain, and certainly inconvenience. "I want to offer parents and guardians of babies to have a better time doing this task," said an inventor from North Battleford, Saskatchewan, Canada.

The patent-pending ABC EXPRESS facilitates the transport of a baby in a detachable car seat. It avoids strain and struggle, as well as promotes convenience and peace of mind.

Ergonomic and easy to use, ABC EXPRESS Serves as an alternative to conventional baby car seats, and it's ideal for all parents and guardians of babies.

The original design was submitted to the Canada office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-KOC-267, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
