

CAR SEAT TRAY Invented by InventHelp Client (CPC-172)

Pittsburgh-based InventHelp is submitting the CAR SEAT TRAY to appropriate companies in the hopes of their good faith review.

PITTSBURGH, PA ([PRWEB](#)) December 29, 2016 -- “I thought there needed to be a mess-free way for my kids to eat in the car,” said an inventor, from East Haven, Conn., “so I invented the CAR SEAT TRAY.”

The patent-pending CAR SEAT TRAY provides an easy way to enjoy snacks and drinks in the backseat of a car. In doing so, it eliminates the need to hold and balance food and drink items. As a result, it helps to prevent spills and messes and it ensures that the interior of the car remains neat and clean. The invention features a practical design that is convenient and easy to use so it is ideal for vehicle owners. Additionally, the CAR SEAT TRAY is producible in design variations.

The inventor described the invention design. “My design makes eating in the car easy.”

The original design was submitted to the Connecticut office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-CPC-172, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
