

## **InventHelp Inventor Develops Automotive Decoration for Sports Fans (NJD-1359)**

*Pittsburgh-based InventHelp is submitting the WRAP MY RIDE to companies for their consideration.*

PITTSBURGH, PA ([PRWEB](#)) April 11, 2017 -- "I really wanted something to make my automobile pop when I went to a tailgating event," said an inventor from West New York, N.J. "I thought that this would be a great way to show support for a favorite team."

He developed the patent-pending WRAP MY RIDE to add a stylish touch to a motor vehicle. The accessory enables a sports fan to show support for a favorite team. It serves as a conversation piece and makes a great attraction at tailgating events. The unit promotes team spirit and solidarity. Furthermore, it is adaptable for use with virtually any vehicle.

The original design was submitted to the New Jersey office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers.
