

Clean/Polish Vehicle Tires More Conveniently with THE RIM PROTECTOR - Designed by InventHelp Client (ROH-303)

InventHelp is attempting to submit THE RIM PROTECTOR to appropriate companies in the hopes of their good faith review.

PITTSBURGH, PA ([PRWEB](#)) April 13, 2017 -- Many people like to keep their vehicles looking shiny and attractive, taking great pride in their careful maintenance and attention to detail. "Tired of having to clean my tire rims twice every time I cleaned my tires, I thought to myself: 'There has to be a better and easier way to perform the tire-cleaning process,'" said an inventor from Grand Island, N.Y.

THE RIM PROTECTOR makes the task of tire cleaning and shining more convenient. It prevents needless marring of the rims, which eliminates the need to clean the rims more than once. Overall, it saves time and effort.

Ergonomic, easy to use, compatible with all vehicles, and producible in different sizes, colors and designs, THE RIM PROTECTOR is ideal for all vehicle owners, car enthusiasts and car detailers.

The original design was submitted to the Rochester office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-ROH-303, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
