

InventHelp Inventors Develop Protective Motorcycle Apparel (HTM-4067)

A leading inventor service firm, InventHelp is submitting the PRO SUIT to companies in the hopes of their good faith review.

PITTSBURGH, PA ([PRWEB](#)) May 27, 2017 -- Inventors from Inkster, Mich., have developed the patent-pending PRO SUIT, a protective outfit for vulnerable motorcyclists and other adventure riders. It is designed to enhance safety in the event of a serious accident.

"God gave us this idea because we're inspired to protect people. Our invention will help protect and save lives," said the inventors.

The PRO SUIT reduces the possibility of experiencing serious injuries or even death resulting from a motorcycle accident. It will offer peace of mind to concerned motorcyclists. This piece of apparel may even encourage others to participate in potentially dangerous activities, knowing that they will be protected.

The original design was submitted to the National Sales office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-HTM-4067, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
