

The European Automotive Supply Base Analysed

([PRWEB](#)) May 28, 2004 -- Research and Markets announces the addition of this new report entitled "The European Supplier Report 2003" to its offerings.

This well-received report is an indispensable reference work for anyone with a serious interest in the current state of the European automotive sector.

The European Supplier Report 2003 provides the most comprehensive and detailed overview of the European automotive supply base available in one online package.

The report maps the supply base of eighteen car makers and brands in the world's largest and most complex automotive market.

The report lists suppliers of 120 key components for each manufacturer and identifies many of the major supply relationships in the European automotive industry

In addition the report tracks recent developments at 200 leading suppliers in Europe including:

- Key financial data
- Key Executives
- Recent business developments
- Technologies
- Investments
- Outlook

Summary tables provide an overview of the recent financial performance of the European supply base to provide a benchmark for the individual company profiles.

The report also outlines recent restructuring of the industry and includes the PwC Autofacts outlook for the sector.
