

Rinaldo Law Group Will Be Featured on Tampa Bay's Morning Blend to Discuss the Consequences of Distracted Driving and Tips on How to Avoid Doing So

Local personal injury law firm will be featured on local television show to discuss the negative effects of distracted driving and provide ways to avoid driving distractedly.

TAMPA,FL ([PRWEB](#)) August 29, 2017 -- On Tuesday, August 29th, at 10 a.m., Rinaldo Law Group will be featured on ABC Action News' Tampa Bay's Morning Blend to discuss the negative consequences of distracted driving and share tips on how to avoid them. Catherine Rinaldo, founding partner of Rinaldo Law Group, will be speaking with Carley Boyette, co-host of Tampa Bay's Morning Blend on the shocking statistics surrounding distracted driving, and ways on how to prevent these statistics from getting any higher.

"This is our way to give back to the community," said Rinaldo. "We are hoping that people understand how truly dangerous it is to drive while using one's cell phone and to give tips on how to resist the very real temptation and educate their loved ones."

From the statistics and effects, to what Rinaldo Law Group is doing against it, to solutions for everyone, Riinaldo made sure to fully cover the topic of distracted driving. Rinaldo offered to provide further information to families, and even offered a free cellphone card sleeve and a family pledge to those who wanted one.

"One of the ways to help prevent distracted driving is through our family pledge," said Rinaldo. "Families often times don't have these conversations and this is one way of having that much needed conversation."

With Labor Day around the corner, Rinaldo wanted to ultimately make sure the community knew the hazards of driving distractedly. To learn more, call 813-831-9999 or email [cmr\(at\)rinaldolawgroup\(dot\)com](mailto:cmr(at)rinaldolawgroup(dot)com).
