

Research and Markets : Analysis of the Vehicle Market in China

Research and Markets ([researchandmarkets.com/reports/c13734](http://www.researchandmarkets.com/reports/c13734)) has announced the addition of Chinese Markets for Vehicles to their offering.

([PRWEB](#)) March 11, 2005 -- Research and Markets (<http://www.researchandmarkets.com/reports/c13734>) has announced the addition of Chinese Markets for Vehicles to their offering.

China's demand for vehicles has grown at a fast pace in the past decade. In the next five years, both production and demand will continue to grow.

The living standard in China has improved significantly since the economic reform. An increasing number of high-income families have gained wealth enabling them to purchase high-priced items, such as automobiles, especially Mini-cars

This report introduces China's macroeconomic trends, business environment, motor vehicles industry structure and capacity, production and demand, major producers, potential entrants, consumption trends, distribution channels and major industry participants. It includes an outlook for major motor vehicles production. Tables and charts are contained and key producers are listed.

Historical data (1990, 1995 and 2000) and long-term forecasts through 2005 and 2010 are presented. Major producers in China are also profiled.

The following areas were described in detail:

Business Environment

Economic Outlook

Financial and Tax Regulations

Motor Vehicles Industry Assessments

Motor Vehicles Industry Capacity

Major Producer Facility Locations, Output and Capacity

Market Share of Key Producers

Potential Entrants

Major Foreign Investments

Technology Development

Motor Vehicles Production And Demand
