

## **Protective Case Invented for Car Keys - Designed by InventHelp Client (WDH-268)**

*InventHelp, founded in 1984 in Pittsburgh, is submitting the SAFE KEY HIDE AWAY HOLDER to companies for their review.*

PITTSBURGH, PA ([PRWEB](#)) July 28, 2017 -- There's no doubt that remote activation has its advantages; but when it comes to automobiles, it presents problems as well. For instance, a vehicle owner can inadvertently touch one of the buttons on the car key that automatically unlocks the car or sounds the alarm. Also, I don't have to worry about losing any keys off of a key ring. Thanks to an inventor from Silver Spring, Md., however, there is no longer a need to worry about that happening.

She developed SAFE KEY HIDE AWAY HOLDER to prevent accidental unlocking of motor vehicles and avoid unintentional car alarm activation. Furthermore, it safeguards the car key against loss and theft. As a result, it affords peace of mind. At the same time, it eliminates the need to waste time searching for a key in a purse or pocket or around the house. It also keeps house door keys, padlock keys and others safely and easily accessible when ready to use. This innovative device is also durable for years of effective use. In addition, it is convenient, easy to use and affordably priced.

The inventor's personal experience inspired the idea. "After purchasing a new car, I realized how sensitive the keys are and how easy it is to accidentally press the buttons on them that unlock the vehicle or activate the alarm," she said. "I wanted to find a way to keep these buttons from being depressed unintentionally and hide away my house keys as well. I also wanted a convenient accessible way to store not only car keys but all my other keys as well (door, padlock, business keys, etc.)."

The original design was submitted to the Washington, D.C., office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-WDH-268, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
