

Inventor Develops Effective Carbon-Monoxide Detector (LGI-2432)

Pittsburgh-based InventHelp, a leading inventor service company, is submitting this client's idea, Vehicle CO Detector, in the hopes of a good faith review.

PITTSBURGH, PA ([PRWEB](#)) October 18, 2017 -- PITTSBURGH...“I thought there needed to be a safe way to alert vehicle owners of carbon monoxide inside the car,” said an inventor, from Hollis, N.Y., “so I invented the VEHICLE CO DETECTOR.”

The VEHICLE CO DETECTOR provides an effective way to detect carbon monoxide within the interior of a vehicle. In doing so, it could help to prevent carbon monoxide poisoning. As a result, it enhances safety and it provides added peace of mind. The invention features a practical design that is convenient and easy to use so it is ideal for vehicle owners. Additionally, the unit is producible in design variations.

The inventor described the invention design. “My design provides added protection for drivers and passengers.”

The original design was submitted to the Long Island office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-LGI-2432, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
