

Inventor Develops Transport Aid (SFO-362)

InventHelp, a leading inventor service company, is working to submit Tow Tote Modular to companies for their review.

PITTSBURGH ([PRWEB](#)) October 26, 2017 -- PITTSBURGH...An inventor, from Hayward, Calif., thought there needed to be a better way to transport extra supplies behind a vehicle, so he invented the TOW TOTE MODULAR.

The TOW TOTE MODULAR provides a more effective way to transport cargo behind a vehicle. In doing so, it offers an alternative to traditional trailers. As a result, it enhances cargo-carrying capabilities. The invention features a versatile design that is convenient and easy to use, so it is ideal for outdoors enthusiasts and contractors. Additionally, the TOW TOTE MODULAR is producible in design variations, and a prototype is available.

The inventor described the invention design. “My design offers versatility when transporting cargo.” The original design was submitted to the San Francisco office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-SFO-362, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
