

Inventor Develops Convenient Vehicle Accessory (HLW-1839)

InventHelp, a leading inventor service company, is working to submit Window Control Panel Cover to companies for their review.

PITTSBURGH ([PRWEB](#)) November 01, 2017 -- PITTSBURGH...An inventor, from West Park, Fla., thought there needed to be a simple way to keep a vehicle's side panel safe from water damage, so he invented the WINDOW CONTROL PANEL COVER.

The WINDOW CONTROL PANEL COVER provides an effective way to protect the inner door buttons on a vehicle. It also offers an easier way to see the buttons at night. As a result, it could help to prevent damage, and it enhances convenience. The invention features a user friendly design that is easy to apply and use, so it is ideal for vehicle owners. Additionally, the WINDOW CONTROL PANEL COVER is producible in design variations.

The inventor described the invention design. "My design helps to protect the buttons and switches located on a car's side panel."

The original design was submitted to the Hollywood office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-HLW-1839, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
