

InventHelp Inventor Develops VARI-WINDOW (LGI-2379)

InventHelp, a leading inventor service company, is working to submit VARI-WINDOW to companies for their review.

PITTSBURGH ([PRWEB](#)) November 09, 2017 -- “I thought there needed to be a safe and easy way to prevent sunlight glare when driving,” said an inventor, from Hempstead, N.Y., “so I invented the VARI-WINDOW.”

The VARI-WINDOW provides an improved way to reduce sunlight glare while driving. In doing so, it offers an alternative to traditional tinted windows and sunglasses. As a result, it enhances safety and keeps the car legal, and it provides added protection, a cooler temperature and peace of mind. The invention features an effective design that is convenient and easy to use so it is ideal for vehicle owners. Additionally, the VARI-WINDOW is producible in design variations.

The inventor described the invention design. “My design offers a convenient glare-free view.”

The original design was submitted to the Long Island office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-LGI-2379, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
