

Inventor Develops Automotive Accessory for Cold/Flu Relief (SFO-456)

InventHelp, a leading inventor service company, is working to submit Vaporvent to companies for their review.

PITTSBURGH, PA ([PRWEB](#)) November 15, 2017 -- PITTSBURGH...After dealing with being sick while driving to work, running errands and going through daily travel routines, an inventor from Las Vegas, Nev., decided that there should be a way to find relief during such times. That's when he came up with the idea for the patent-pending VAPORVENT.

This device relieves and treats a vehicle occupant who has a flu, cold, allergy, hay fever, bronchitis or other respiratory ailment. As a result, it promotes convenience, comfort and peace of mind, as well as allows for better concentration.

Compact, ergonomic and easy to use, the VAPORVENT is ideal for the general population.

The original design was submitted to the San Francisco office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-SFO-456, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
