

## **InventHelp Inventor Designs Alternative Car Cover (HLW-1381)**

*Pittsburgh-based InventHelp is working to submit the Touch Less Car Cover to applicable companies for their consideration.*

PITTSBURGH, PA ([PRWEB](#)) January 14, 2015 -- "I love my car, but after washing and covering it, I found that cover itself made it dirty," said an inventor from Key Largo, Fla. "This inspired me and the co-inventor to design a way to prevent this problem."

She then designed the patent-pending TOUCH LESS CAR COVER, which provides a more reliable way to cover one's car. It keeps the car safe from scratches and dirt, as well as avoids direct contact with the car's surface. As a result, it maintains a good look and promotes peace of mind.

The original design was submitted to the Hollywood office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 13-HLW-1381, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
