

Invention Prevents Children and Pets from Being Left in Vehicles (FLA-2948)

InventHelp, a leading inventor service company, is working to submit Don't Leave Me to companies for their review.

PITTSBURGH ([PRWEB](#)) December 01, 2017 -- After hearing about babies and pets dying tragically due to being left in unattended vehicles, an inventor from Pompano Beach, Fla., decided that there should be an easy and reliable way to prevent this from happening.

The patent-pending DON'T LEAVE ME helps to prevent a parent or guardian from leaving a baby, toddler or pet behind in an unattended vehicle. This is designed to avoid tragic death by countering the consequences of hastiness and unintentional neglect.

Designed to promote safety and peace of mind, DON'T LEAVE ME is easy to use and reliable, as well as ideal for all parents and guardians of children, and pet owners.

The original design was submitted to the Fort Lauderdale office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-FLA-2948, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
