

## **InventHelp Inventor Develops Device to Prevent and Locate Stolen Cars**

*InventHelp, a leading inventor service company, is working to submit Warning Sticker to companies for their review.*

PITTSBURGH ([PRWEB](#)) December 08, 2017 -- “I thought there needed to be a better way to prevent stolen cars and to locate cars that have been stolen,” said an inventor, from Hughson, Calif., “so I invented the WARNING STICKER.”

The WARNING STICKER provides an effective way to track and recover a stolen vehicle. It also could help to deter theft. As a result, it enhances security and it provides added peace of mind. The invention features an adaptable design that is easy to install and use so it is ideal for vehicle owners. Additionally, the WARNING STICKER is producible in design variations.

The inventor described the invention design. “My design could help to eliminate hassles associated with car thefts.”

The original design was submitted to the Fresno office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers.
