

Inventor Develops Snow-Removal Device for Vehicles (VIG-303)

Pittsburgh-based InventHelp, a leading inventor service company, is submitting this client's idea, Car Koozy, in the hopes of a good faith review.

PITTSBURGH ([PRWEB](#)) December 09, 2017 -- "I thought there needed to be a simple way to remove snow and ice from your car," said an inventor, from Virginia Beach, Va., "so I invented the CAR KOOZY."

The CAR KOOZY provides an effective way to protect a parked vehicle from snow and ice. In doing so, it eliminates the need to brush and scrape snow and ice. As a result, it saves time and effort and it provides added peace of mind. The invention features a lightweight design that is convenient and easy to use so it is ideal for vehicle owners. Additionally, the CAR KOOZY is producible in design variations.

The inventor described the invention design. "My design offers a time-saving alternative to scraping ice and brushing snow. It is the only one on the market."

The original design was submitted to the Virginia Beach office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-VIG-303, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
