

InventHelp Inventor Develops Hassle-Free RV Cover for Safety (LAX-898)

InventHelp, founded in 1984 in Pittsburgh, is attempting to submit this idea, the SAFE & EASY RV COVER to applicable companies for their consideration.

PITTSBURGH ([PRWEB](#)) December 14, 2017 -- "I needed a cover that would keep my RV protected from the elements, but I did not want to have to be stuck climbing atop the vehicle in order to set up and take down the cover," said an inventor from Ventura, Calif. "This inspired me to develop a more convenient cover."

He developed the SAFE & EASY RV COVER to protect the RV from inclement weather and airborne debris. The cover is easy to set up and take off. The design eliminates the need to climb onto the RV, which reduces the risk of slips, falls and injuries. It also saves the RV owner from physical stress and strain. Furthermore, all of this offers added peace of mind.

The original design was submitted to the Los Angeles office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-LAX-898, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
