

Set of Alternative Vehicle Speakers Invented (AUP-747)

InventHelp, founded in 1984 in Pittsburgh, is attempting to submit this idea, Bubble Light Car Speakers, to applicable companies for their consideration.

PITTSBURGH ([PRWEB](#)) December 20, 2017 -- Since he's in the music business, an inventor from Austin, Texas, likes to listen to my music at outdoor or tailgating parties. "I came up with this idea as a new way to listen to music while out and about," he said.

The BUBBLE LIGHT CAR SPEAKERS allows for convenient listening to music in or around a vehicle. It eliminates the need to bring along a sound system. It also enhances outdoor or tailgating parties, which promotes enjoyment.

Aesthetic, unique, easy to use and producible in design variations and different versions, the invention is ideal for music lovers, outdoors enthusiasts, tailgaters, car enthusiasts, etc.

The original design was submitted to the Austin office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-AUP-747, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
