

## **Alternative Rearview-Mirror Decoration Developed by InventHelp Inventor (DHM-209)**

*Pittsburgh-based InventHelp, a leading inventor service company, is submitting this client's idea, COOLIECE'S ICE DICE in the hopes of a good faith review.*

PITTSBURGH, Pa. ([PRWEB](#)) December 01, 2017 -- One day as he was meditating in his truck, an inventor from Plymouth, N.C., thought that there should be a way to decorate his rearview mirror without blocking too much of the view. "Since the common decoration of fuzzy dice is bulky and distracting, I eventually came up with this alternative," he said.

COOLIECE'S ICE DICE provides an attractive decoration for a vehicle's rearview mirror. It enhances the look of a vehicle interior. It also serves as an alternative to fuzzy dice. Most important, it doesn't block the driver's view, which promotes safety. Aesthetic, compact and versatile, COOLIECE'S ICE DICE's variations include different sizes, colors and designs.

The inventor has created a prototype of his idea.

The original design was submitted to the Durham office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-DHM-209, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
