

Ride N Care Partners with PRIME Surgical Centers for Outpatient Transportation

Ride N Care's digital health and wellness transportation platform gives PRIME's patients the flexibility to schedule outpatient procedures at their convenience, without having to impose on friends or family for transportation. Ride N Care's personalized patient transportation solutions are easy to set-up, cost-effective, and help take some of the stress out of having an outpatient procedure.

Santa Monica, CA ([PRWEB](#)) November 08, 2017 -- In a continuation of its industry and geographic expansion to meet demand for its health + wellness transportation solutions, Santa Monica, Calif.-based tech startup Ride N Care, Inc. is partnering with PRIME MSO, a leading surgical facility management organization, to provide patient transportation for PRIME's outpatient facilities throughout Southern California. The partnership will give PRIME's outpatients a safe, easy-to-use, and HIPAA-compliant transportation alternative.

"After working with the terrific and dedicated team at PRIME MSO on our pilot program, it's exciting to formalize our partnership and expand the delivery of Ride N Care's transportation platform to all of PRIME's outpatient locations," says Danilo Toskovic, Ride N Care's co-founder and CEO. "Ride N Care's health and wellness transportation solutions offer PRIME's patients the flexibility to schedule outpatient procedures at their convenience, without having to impose on friends or family for transportation. Ride N Care's personalized patient transportation options are easy to set-up, cost-effective, and help take some of the stress out of having an outpatient procedure."

Different from other digital ride share services, Ride N Care offers a secure, scalable and proprietary digital platform coupled with a high-touch interface that is HIPAA-compliant. The platform is available to both individual and institutional customers in every segment of the healthcare, wellness, and Senior services markets. Transportation service offerings include RNC Basic (curb-to-curb), RNC Pro (door-through-door assisted by a care professional), and RNC Specialty (wheelchair, WAV, and gurney transportation). Requests are completed either by speaking to an operator available 24/7 or through the digital interface that allows individuals and health care organizations to easily manage transportation type selection, pricing, scheduling, pick up and drop off, and payment processing.

About Ride N Care, Inc.

Ride N Care was founded in 2015 by an experienced patient transportation team to improve health and wellness outcomes for people with limited access to safe, reliable and cost-effective transportation. Whether it's aging-in-place seniors, hospital inpatient discharge, outpatient post-procedure transportation, patients needing follow-up care, clinical trial subjects, chemotherapy or dialysis patients, and others with mobility limitations, Ride N Care's solution makes it easy to solve the transportation puzzle and improve health and wellness outcomes. Every transport request can be completed easily and securely by calling toll-free: +1 (800) 507-0672, or at <http://www.ridencare.com>.
