

TI Automotive Wins Ford Contract for Fluid Lines

TI Automotive, the world's leading supplier of automotive fluid storage and delivery systems, will provide brake and fuel lines for three future Ford Motor Company vehicles.

WARREN, MI ([PRWEB](#)) September 16, 2004 -- TI Automotive, the world's leading supplier of automotive fluid storage and delivery systems, will provide brake and fuel lines for three future Ford Motor Company vehicles.

Production will take place at TI Automotive plants in Normal, Ill., Cartersville, Ga., and Reynosa, Mexico, for upcoming model-year vehicles.

"With this win, Ford and TI Automotive extend a 20-year partnership for midsize vehicles," says Rich Kolpasky, president of TI Automotive's Global Fluid Carrying Systems Group.

TI Automotive is the world's leading supplier of fluid storage, transfer and delivery systems including brake, fuel and air conditioning applications. Based in Warren, Michigan, the company employs over 20,000 people at more than 130 facilities in 29 countries on six continents. Further information about TI Automotive is available on the company's website at www.tiautomotive.com.
