

Nexus Expands Transportation Services

Nexus Distribution has purchased 30 new 53' trailers and 4 new over the road tractors to supplement transportation efforts.

([PRWEB](#)) July 21, 2004 -- Nexus Distribution has just supplemented its transportation capabilities on truckload and less-than-truckload services by purchasing 30 new 53' trailers and 4 new over the road tractors. These new purchases bring the Allentown, PA based fleet to a total of 110 trailers and 45 tractors. Nexus is committed to providing secure and on-time deliveries to thousands of U.S. communities every day.

While Nexus is most known for its 24 years of delivering 3PL services with more than two million square feet of public warehouse space they have always kept watch on the expectations of some of North America's most demanding companies. With current state of transportation, this requires maintaining the same affinity for the rigors of continuous improvement and the quality process as always -- shining a light on aggressive cost effective nationwide transportation services.

Nexus now provides a modern fleet incorporating 45 tractors and 110 trailers, which will only add to the 98.5% overall on-time delivery record.

About Nexus Distribution:

Nexus is a privately held, asset-based, third-party logistics company dedicated to serving the market's need for public/contract warehousing and integrated distribution services. We are highly process-driven in our business approach and maintain approximately 2 million square feet of distribution space in Allentown, PA; Chicago, IL; and Atlanta, GA.
