

ARCLINE (2000) INC. Reconizes The Urgency Of The Ability To Track H.O.S. For The Transportation Industry - AT NO ADDITIONAL FEE

Arcline (2000) Inc. announces the ability for our current and future clients to track Hours of Service within our software at no extra charge!

([PRWEB](#)) July 31, 2004 -- Our ArcFleet® Software System for can now track and record the driving and resting periods of drivers to conform to the new federal Hours of Service regulations that came into effect on January 4, 2004. "By keeping up with the ever-changing world of transport, and seeing the importance of tracking Hours of Service within our software is proof of our commitment to our current and future clients", says Michelle Dirracolo, Operations Manager for Arcline (2000) Inc. Dirracolo continues by saying, "I relate to the financial stress for trucking companies, therefore feel that we are contributing in helping deliver a tool within our ArcFleet® system that will not cost our clients money, but save our clients money by running at increased efficiency."

About Arcline (2000) Inc.
