

Free Lance Driver Releases a Petition: A Petition by the Drivers of the United States of America

This petition covers many areas and was created by drivers to enable a voice in their professional as well as personal life and career. This petition will be available the entire month of August, 2004 for signatures. You must be a valid CDL holder to sign the petition

([PRWEB](#)) August 11, 2004 -- Too often a driver's voice goes unheard yet when it comes to the driver, the driver must listen. This is where the drivers come out of the closet and make themselves heard. All too often fingers are pointed at truck drivers, especially when there is an accident. There is never a statement made as to whether the truck driver was at fault or not.

Why should others have a voice in a driver's personal and professional life and the driver doesn't? If a driver can't have a voice then neither can the other groups and coalitions!

This is a legal document and all signatures are monitored to prevent bogus signatures. All signatures must include a full name, email address, and state. All email addresses are locked to where they are secured. They are automatically sent to a secured email address and added to a signature list to be sent to all Federal, State, and other entities in relation to this petition.
