

## **Royal Purple And Nish Motorsports Team Up To Make Racing History At The Bonneville Salt Flats**

*Royal Purple is pleased to announce that its Streamliner, driven by Nish Motorsports' Mike Nish, Pam Curtis or Jim Wysong, will run in the SCTA / BNI World Finals on the Bonneville Salt Flats where the 'Worlds Fastest Family' will attempt to break an FIA world record.*

([PRWEB](#)) August 25, 2004 -- Royal Purple is pleased to announce that its Streamliner, driven by Nish Motorsports' Mike Nish, Pam Curtis or Jim Wysong, will run in the SCTA / BNI World Finals on the Bonneville Salt Flats where the 'Worlds Fastest Family' will attempt to break an FIA world record.

To prepare for the 2004 season Nish Motorsports enlisted the help of their longtime friend and engine builder, Tom Klein of Klein Engines in Chandler, AZ to build a new engine capable of 3,000 horse power. Klein is installing a 673 cubic inch Aries Big Block naturally aspirated Chevy engine.

Other modifications to the Streamliner, which made its debut in 2002, include: Jim and Benjamin Burkdoll modifying the mold, body, engine cover and air inlet at Autobody Express in Ogden, UT and Tim McNees, who fabricated the original chassis at McNees Enterprises in Salt Lake City, UT, is currently involved in modifying the frame structure. Nish Motorsports' Crew Chief Cec McCray is busy making all the necessary in-house modifications as well as preparing all the support equipment.

The Nish family will be attempting to push the new Royal Purple #998 Streamliner past the 409 miles per hour mark during the 2004 season.

Their first event at the Bonneville Salt Flats is part of the SCTA / BNI Bonneville Speed Week in August 2004. Another event to watch for is the SCTA / BNI World Finals in October where Nish Motorsports will attempt to break an FIA world record.

T. Mark McFann, marketing director at Royal Purple, adds, 'We welcome the chance to continue to work with the Nish family not just because they're a very talented team, but also because they are so driven to succeed and win the world record. We wish them the best of luck in the upcoming racing season'

Nish Motorsports will not only be wearing Royal Purple colors in 2004, the car will be running Royal Purple motor oil, transmission fluid, gear oil, power steering fluid and Purple Ice radiator super coolant.

In addition to sponsoring Nish Motorsports and select other race teams, Royal Purple is posting more than \$300,000 in Purple Cash as a contingency sponsor in 2004. The company also is a contingency sponsor for the Grand-Am Cup ST class; NHRA, IHRA, NMRA, NSCA and Fun Ford Weekend drag racing; and CMRA motorcycle road racing.
