

## PartsRiver Expands in 2005 to Keep Up with Demand

*PartsRiver, Inc., the leading provider of data quality and intelligent spend control services for the transportation industry welcomed 2005 with an expanded customer base, staff, and services.*

Menlo Park, CA ([PRWEB](#)) January 21, 2005 -- PartsRiver, Inc., the leading provider of data quality and intelligent spend control services for the transportation industry welcomed 2005 with an expanded customer base, staff, and services. PartsRiver's client base includes leaders such as Ryder Transportation, Schneider National, US Xpress Enterprises, Volvo, and Freightliner.

"The demand for intelligent spend data analysis is explosive. Companies of all sizes are realizing that developing a sustainable data quality strategy is a critical part in achieving their operating goals. We're hiring the very best people in order to offer our clients the transportation industry expertise they need to realize the substantial benefits parts spend data management can provide," said Elisa Jagerson, CEO of PartsRiver, Inc.

PartsRiver welcomes new executives Sheryl Arnold, Vice President Services, Robert Camozzo, Vice President Global Sales and Marketing, and Ronald Schoenfeld, Senior Domain Specialist. PartsRiver also welcomes two new additions to the advisory board, Mitch Weseley and Gene Tyndall. Mr. Weseley is Chairman and founder of Global Logistics Technologies, Inc. (G-Log) a freight logistics software company. Mr. Tyndall served as Executive Vice President of Ryder Logistics and is now an industry consultant.

As Vice President of Services, Ms. Arnold leads a team of transportation industry specialists as well as PartsRiver's data base quality assurance services. Arnold joins the PartsRiver team after most recently helping to create, launch and manage Saqqara Technologies. "I share in the same vision with Elisa Jagerson and the rest of the professionals on the PartsRiver team, which is delivering sound management, superior customer service and solid results to our customers," Arnold said.

Bob Camozzo has over 21 years experience in supply chain software and services; distribution network performance and event monitoring systems; as well as "Big Five" management consulting. "PartsRiver is a company on the move; you can't help but get excited about being a part of its future. There is something extraordinary about bringing solutions to transportation leaders that can have a dramatic operating impact with limited risk - that is what PartsRiver is all about," Camozzo said.

Ron Schoenfeld has over 27 years in the heavy-duty truck, bus and automotive parts industries with Mack, Peterbilt, and Blue Bird Body where he supervised Purchasing, Warehousing, Distribution, Warranty and Service Parts Sales as well as directed Field Services, Warranty, Service Engineering, Reliability Engineering and Technical Training. Ron is active in the Technology and Maintenance Council (TMC) VMRS program. "At PartsRiver, I am able to leverage on all my industry experience to help develop solutions that have very high value for our customers," said Schoenfeld.

"PartsRiver has the only completely automated industry reference database that has captured over 8 million unique part numbers representing over 3000 cross-referenced vendor/suppliers. This extensive database and proven quality assurance processes enable PartsRiver to quickly deliver 100% data accuracy to its customers. Combined with our software and industry specialists, the size and accuracy of our database allows us to handle growth without sacrificing data integrity," Jagerson said.

We are very fortunate to have attracted a team of such high caliber. They are not only driving our significant growth but are also keeping the quality of our products and services unsurpassed," said CEO Elisa Jagerson. "I believe in hiring the very best people and giving them the support and flexibility they need in their work life to thrive and stay motivated to help our clients avoid costs through informed data services.Â"

About PartsRiver, Inc.

PartsRiver, Inc., is the leading provider of data quality and intelligent spend control services for the transportation industry. PartsRiver leverages data, technology, and industry expertise to unlock the power of the part information stored in today's business systems. Our services provide visibility across inefficiencies in parts purchasing and inventory, where data quality is paramount. PartsRiver is a privately held corporation headquartered in Menlo Park, CA.
