Los Angeles, CA ([PRWEB](#)) September 16, 2004 - Some of the fastest street legal cars are meeting some of the baddest bikes on the west coast for an awesome series of videos and photo shoots. Attending will be some of Southern California's most gorgeous and sexy women to pose with the cars and give them a sexy scrub down afterwards. The only things with bras there will be the cars.

Capitalizing on the huge success of other videos in the genre of street racers, real guys want to know - Will my supercharged Corvette with 1000horsepower be able to beat a Kawasaki ZR12 with a turbo? The ultimate what-if scenario will be played out in the California desert.

Hundreds of potential drivers lined up to take part, but only the best of the best can hang with this crowd. Cars need at least 800 real horsepower to be even able to keep up with these guys, so only the best-of-the-best of high tech street legal cars were invited to take part.

Joining them out in the desert will be a group of gorgeous women to cheer them on and clean up the cars afterwards. These are Southern California's sexiest pit crew in action all coming at you in photo and video wearing the hottest fashions.
