

## Horsepower on the Cheap

### *Royal Purple Offers Tips To Get More Horsepower Out Of Your Car For Under \$100*

Porter, TX ([PRWEB](#)) April 14, 2005 -- Want more horsepower without paying much to get it? Here are three easy ways to get more horses out of your ride without taking out a small loan to do it.

Replace and/or upgrade your air filter – During the life of your engine, thousands of cubic feet of air will pass through the engine cylinders. Dust and other material in the engine can cause excessive wear and operating problems. It's imperative that you keep air filters clean by regularly replacing them. To further enhance performance, upgrade to a performance air filter, which can free up an additional 2-3 horsepower. While not a tremendous power gain, the relatively low cost of a filter and ease of installation (about 5 minutes) more than make up for it.

Upgrade your lubricants – Friction and heat from engine components and the drive train rob horsepower and performance. Minimizing this power loss can be as easy as upgrading to one of the newer high performance lubricants that are available. For instance, in a test by Horsepower TV, upgrading to Royal Purple® on a LS1 Camaro freed up 9 horsepower. While there are a number of high performance lubricants on the market, only Royal Purple® has been endorsed by Hot Rod magazine. More information on their lubes can be found at [www.royalpurple.com](http://www.royalpurple.com).

Use higher octane gas or an octane booster – Go for the good stuff the next time you're at the pump. Depending on your vehicle, high octane gasoline can provide an increase in horsepower. Even a marginal gain in switching from the lowest octane gasoline to the highest octane is worth a few extra pennies at the pump. For those who want to see a more measurable increase in power, a racing blend of gasoline will work well for those willing to put the time and effort into finding and purchasing it.

Upgrading your gas, lubricants and air filter are a cheap and easy way to see increase horsepower. They'll also extend the life of your engine and help prevent expensive repairs.

#### About Royal Purple

Royal Purple makes synthetic products for all your automotive needs. For details on the independent statistics stated in this article or for more information on Royal Purple and its products, contact Royal Purple Ltd., One Royal Purple Lane, Porter, TX 77365, 281-354-8600, [www.royalpurple.com](http://www.royalpurple.com).
