([PRWEB](#)) October 1, 2004 -- Mooresville, NC (PRWEB) October 1, 2004 The incredible 2004 season of the ARCA® RE/MAX® Series for Rookie Sensation Ryan Hemphill and his TRIMSPA team comes to an end this weekend at the Talladega Superspeedway®. The 22-year-old heads into the famed 2.66 mile tri-oval in search of his seventh win of the season as he pilots the #64 TRIMSPA Dodge® in the Food World® 300 season finale.

This will be a bittersweet week at the track, said Hemphill. This year has been so much fun and it seems just like yesterday that we started this thing in Daytona. I have really enjoyed my time running in the series I don't know what my plans are for next year, but I would not mind coming back and running for the championship. But first, I would like to end this season on a strong note with another win for Team TRIMSPA.

This will be Hemphill's career debut at Talladega, although he has logged many miles around the track testing in a Cup car and a Craftsman® truck. The team will bring back with them the same car that Ryan finished fifth with at the season opener in Daytona. Since then, the Braun Racing team has made some repairs and fine-tuned the aero package to the TRIMSPA Dodge. The adjustments made a strong showing during a test last week at the track.

Hemphill's experience in this season's ARCA RE/MAX Series has been well chronicled and ranks up there with other impressive rookies who have competed in the series. Entering Talladega, the Apollo, Pennsylvania native has competed in 13 events and posted some highly impressive stats six wins, six poles and two new track records (both at Nashville). He hopes to raise his winning percentage to an astounding 50% by garnering his seventh win in his 14th race this weekend.

Placing in the top is a remarkable accomplishment, said Alex Goen, CEO of TRIMSPA. We are extremely proud of Ryan and are very excited about the last race of the season in Talladega.

The green flag for the running of the Food World 300 is scheduled to wave Saturday, October 2nd at 1:00 p.m. CST with live coverage on Speed Channel®.
