Las Vegas, NV ([PRWEB](#)) October 11, 2004 -- Everyone should drive the car of their dreams at least once in their life—but what if you could drive five—all in one day? RAV, Las Vegas' premier exotic car rental company, has created the ultimate sight-seeing experience. They've replaced your run of the mill tour bus by putting you behind the wheel of five of the most exciting sports, luxury and exotic motorcars in the world. As part of the Super Car Tour, you will experience two of Italy's finest, the Ferrari 360 Modena and Maserati Spyder with F1-style shifting. You will also finesse two of the finest sports cars made in America; the Viper SRT-10 roadster and the new Corvette C6 coupe. Lastly, a portion of the Super Car Tour will be completed in the quintessential Porsche, the Carrera cabriolet. Super Car Tour Las Vegas is an exhilarating 120-mile exodus out of Las Vegas to Lake Mead and the Hoover Dam.

This is the perfect out-of-sight seeing escape for both small groups and individuals. The tour of Vegas and its surrounding areas is divided into five legs, with each leg being driven in a different, immaculately prepared exotic car. Ferrari, Corvette, Viper, Maserati, Porsche - participants will drive each and every one during the tour. Maps and detailed "rally-style" road books with easy to follow directions and designated driver change and car change points are handed out before each tour along with walkie-talkie radios.

There is now a definitive answer to the question, "What is there to do in Las Vegas when the sun's up?" See and be seen. The tour route starts with a super car convoy down the famous Las Vegas Strip, passing landmark hotels like the Bellagio and Caesar's Palace. The convoy moves beyond Stratosphere Tower and through downtown Las Vegas, heading east into the hills surrounding the city. Traffic and neon are now only specks in the rearview mirror as the roads sweep and roll through the desert.

The route follows along the shores of Lake Mead, past Callville Bay and the stunning red rock formations known as the Bowl of Fire where there is a first-class photo opportunity.

Continuing past Boulder Beach and the Marina, you soon approach the unmistakable wonder of the Hoover Dam and will actually drive across the massive structure and into Arizona for a brief stop-off.

On your return, you will pass Lake Mead again and drive along the shores of the man-made Lake Las Vegas where you will cool down at the Ritz Carlton Hotel and have time to explore the unique shops and restaurants

of this picturesque, Italian-styled village.

Super Car Tour Las Vegas provides a unique opportunity for individuals or groups of friends who can appreciate driving a collection of cars with a combined new sticker price approaching \$500,000 on the same road trip. This isn't just a way to kill a Friday afternoon in Vegas. Super Car Tour Las Vegas packs a lifetime of driving ambition into one incredible day.

Sometimes what happens in Vegas, doesn't always stay in Vegas, because sometimes what happens in Vegas is just too good to keep to yourself.
